

PRODUCT

5L Eagle

Upholstery fabric category	natural aniline nubuck thick leather
Leather thickness according to DIN EN ISO 2589	1,3 - 1,5 mm

CTL® GmbH

QUALITY FEATURES

The product complies with quality requirements for upholstery leather according to DIN EN 13 336:2012

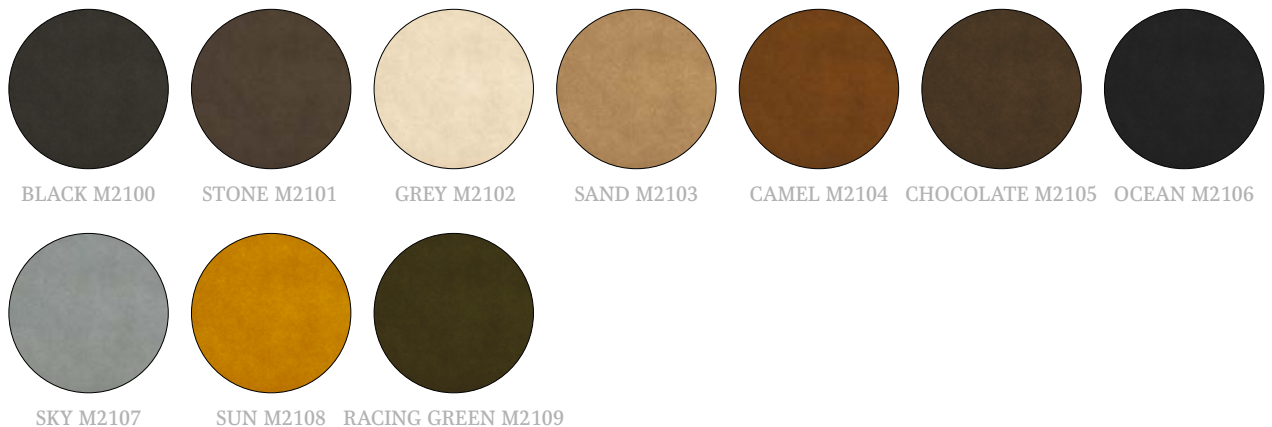

Light fastness EN ISO 105-B02	3
Colour fastness to rubbing EN ISO 11640/11641 dry/wet/sweat solution	3/3/3
Behaviour at permanent folding DIN EN ISO 5402-1 based on DIN 53359 – 50,000 cycles	no tears
Burning behaviour EN 1021-1/BS 5852-0 cigarette test	passed
MAK amines, azo dyes EN 14362-1 & 3	not detectable
Chlorophenols/PCP, TeCP, TriCP SOP 4309	not detectable
Chrome (VI) content DIN EN ISO 17075	not detectable

Other test results are available on request from designwerk.

PROPERTIES OF THE COVER FABRIC

EAGLE is one of the most decorative cowhide leathers with most pleasant and comfortable feel. Instead of a smooth surface finish, the semi-aniline nubuck leather provides a fine, slightly napped pile with partly open fibres. This makes EAGLE elegantly matt and pleasantly soft, but also opens up the structure of the skin to ensure optimum temperature and humidity compensation. Typical characteristics of nubuck leather are its distinct natural and growth marks that are also maintained in EAGLE and give it a particularly authentic and lively appearance. With its unique appearance EAGLE underlines the individuality of every piece of furniture.

With a thickness of 1.3 to 1.5 mm EAGLE is manufactured from hand-picked cowhides and is refined to perfection in Italy. It is simply made for comfort.
