PROPERTIES OF THE COVER FABRIC

Since leather is a natural product, all individual marks of each hide will remain visible, which gives the leather upholstery its unique characteristics. The subtle two-tone appearance lends this material a highly elegant aspect. For cleaning, it is generally sufficient to wipe the surface with a clean, damp cloth.

In any case, avoid using aggressive cleaning agents or grease-containing care products, which might damage the material. If in doubt, please ask your authorised dealer. Do not place your furniture next to sources of heat (radiators, fireplaces) and avoid strong, direct sunlight. Colour and texture deviations are typical for this product and do not entitle users to any claims.
