Chrome (VI) content DIN EN ISO 17075	not detectable

PROPERTIES OF THE COVER FABRIC

The special characteristics of this leather have been artfully imprinted by nature. Minimalist, classy embossing accentuates the fine features and thus underlines the elegance and individuality of every inch of the upholstery. At the same time, BUENOS AIRES is also aesthetic, smooth and easy-care to an unrivalled degree. This is ensured by the considered selection of the high-quality materials, the elaborate tanning processes and the special top coating. Despite its robustness, BUENOS AIRES should be protected against direct sunlight, heat sources and aggressive cleaning agents. Colour and texture deviations are typical of this product and do not entitle users to any claims.
