PROPERTIES OF THE COVER FABRIC

Rosello impresses with its largely natural surface, which beautifully highlights the unique characteristics of each individual piece of leather. This makes every piece of furniture unique and ensures excellent temperature and moisture exchange. For cleaning, it is generally sufficient to wipe the surface with a clean, damp cloth.

In any case, avoid using aggressive cleaning agents or grease-containing care products, which might damage the material. If in doubt, please ask your authorised dealer. Do not place your furniture next to sources of heat (radiators, fireplaces) and avoid strong, direct sunlight. Colour and texture deviations are typical for this product and do not entitle users to any claims.
