Berry

Finger on the pulse: Charming and attractive... Berry is said to be the Don Juan of the designwerk sofas. Berry is truly irresistible and seductive. Berry directly invites you to relax, take a break and chill out.

Pocket spring core? – Oh yes.

This is the unbeatable king of seat quality. Feathers are sewn elegantly in small fabric pockets. Greater strength, compressed density and stable robustness are the result. Thanks to its pocket spring core, Berry is always in beautiful shape.
