Details

Metal frames

Our frame types are handmade in Italy and are all made of sturdy metal. The black powder coating gives the frames a particularly elegant look.

Glass table tops

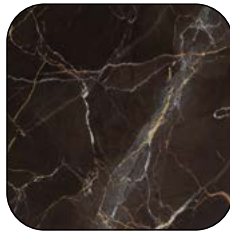

The elegant marble look is created behind glass using a sophisticated digital printing technique. This method makes the appearance more brilliant than real marble and gives it additional appealing depth and shine. Available in 3 colours:

Ceramic table tops

Ceramic can be used to create a natural look. In addition to their impressive appearance, our ceramic tops feature a stunning surface texture that replicates the natural structure of stone. The material is also extremely easy to maintain.

In addition to opaque materials, we also offer smoked glass as another glass quality option. Smoked glass is a type of tinted glass. Furniture made from smoked glass has an inherently extravagant and exclusive look. Available in 2 colours:
