Palace

Truly pompous: The name says it all: the Palace is truly regal. Wide surfaces offer extra space – both when seated upright and when reclining comfortably. This cosy lounge sofa, the upholstered elements of which can be combined in a variety of ways, gives you freedom when it comes to designing and creating it. In this way, every home gets its very own individual touch. Boundlessly flexible: Boundless imagination is what's called for. The Palace can be flexibly configured and is versatile. This oasis of well-being is adaptable to every need. And if your needs change, the Palace adapts without a problem.
