## PROPERTIES OF THE COVER FABRIC

Discolouring due to cushions and/or clothing fabrics does not represent a defect of the upholstery fabric. Colour and texture deviations are typical for this product and do not entitle users to any claims. Interaction of pressure, heat and/or humidity may lead to pile displacement (pressure marks). This property is referred to as indentation or seating marks and is a typical feature that does not represent minor quality in any way.

**Attention:** Colour-contrasting seam only for approved models.
