

designwerk

Berry

Al passo coi tempi: piacevole e attraente, Berry è il “dongiovanni” dei divani designwerk. Davvero irresistibile e seducente. Senza mezzi termini, Berry ti invita a rilassarti indulgendo in dolci pause.

Nucleo a molle insacchettate? Sì!

Una qualità di seduta imbattibile di altissima classe. Le molle sono inserite separatamente in piccole sacche di tessuto. Il risultato si traduce in più stabilità, densità e robustezza. Inoltre, grazie al nucleo a molle insacchettate Berry rimane sempre in ottima forma.

Modello: Berry penisola + elemento 180 profondo + angolo trapezoidale 120-105 + elemento 160 bracciolo dx

Rivestimento: Pelle Soul M4803 Stone e tessuto Roma E165 Antartica
