Details

Metal frames

Our frame types are handmade in Italy and are all made of sturdy metal. The black powder coating gives the frames a particularly elegant look.

Glass table tops

The elegant marble look is created behind glass using a sophisticated digital printing technique. This method makes the appearance more brilliant than real marble and gives it additional appealing depth and shine. Available in 3 colours:

Ceramic table tops

Ceramic can be used to create a natural look. In addition to their impressive appearance, our ceramic tops feature a stunning surface texture that replicates the natural structure of stone. The material is also extremely easy to maintain.
