Details

Metal frames

Our frame types are handmade in Italy and are all made of sturdy metal. The black powder coating gives the frames a particularly elegant look.

Glass table tops

The elegant marble look is created behind glass using a sophisticated digital printing technique. This method makes the appearance more brilliant than real marble and gives it additional appealing depth and shine. Available in 3 colours:

Ceramic table tops

Ceramic can be used to create a natural look. In addition to their impressive appearance, our ceramic tops feature a stunning surface texture that replicates the natural structure of stone. The material is also extremely easy to maintain.

Grigio Chiaro

Grigio Antracite

– Storage space is open and usable with the Tower unit. It fits in any corner and therefore uses every angle efficiently. Plants and other decorative elements also look great with the Tower. It also looks fantastic when used to divide rooms. –
